

## WHAT'S THE BIG JUICY IDEA?

At Dr. Juice we craft, make and sell a range of nutritious foods and juices, from post-workout smoothies to adventurous new dishes that #POWERUP the whole family.

Run by John Winfield but supported by a whole team of juicynators, our mission has always been about offering products to a wide range of people, catering towards all tastes, and never excluding groups who have their own predispositions towards a healthy lifestyle.

We don't have a rulebook on what it means to live healthily but we are always thinking about how we can transform the lives of more and more people through natural good food.

Bringing Dr. Juice into the spaces we spend a lot of our time in, just makes sense. Our next step includes powering up your office, boardroom, and working lunches with Dr. Juice business boxes.

## WHAT'S THE RIGHT OCCASION?

Our business boxes can be used in a number of situations, including:

- relief from mid-meeting tummy growls
- long-lasting fuel and focus for the events that overrun
- short term relief from stressful, overwhelming days
- making your team or clients feel special, looked after & energised

**Our boxes are made to make you and/or others feel good. Achieved through a combination of nutritious ingredients crafted into delightful moments of #POWERUP perfection.**
